### L&T Heavy Engineering Achieves Delivery of Critical Equipment to Global Customers During Lockdown

Mumbai, May 27, 2020: The Heavy Engineering arm of Larsen & Toubro ensured dispatch of critical Reactors, Coke drums and Sub-assemblies of Nuclear Fusion reactor for their global clients during the lockdown period in India from beginning of last week of March.

During this period, a final consignment of 4 (out of total package of 16) ARDS Reactors for Refinery modernization project for clean, environment friendly fuels to ADNOC, Abu Dhabi were delivered by the company. The final 4 Coke Drums part of package of critical Hydrocracking Reactors for DUQM Refinery in Sultanate of Oman & 2 Ethylene Oxide Reactors for LPCL Petrochemical Complex in China were delivered on time.

The sub-assemblies for International Thermonuclear Experimental Reactor (ITER) France were delivered on an urgent basis during Lockdown to ensure uninterrupted assembly of Cryostat in Reactor pit in southern France. It is noteworthy to mention that L&T Heavy Engineering has delivered key assemblies towards realising full fusion power, by manufacturing the world's largest high-vacuum pressure chamber Cryostat and In Wall Shields for \$25 billion multinational ITER project.

All these significant orders for Process Plant and Nuclear Power mega projects were secured against global competition with stiff delivery requirements.

Commenting on the momentous achievement, **Mr Anil V Parab, Executive Vice President and Head, L&T Heavy Engineering** said "During the lockdown our young engineers quickly adapted to new normal and ensured uninterrupted customer service following all safety precautions. We thank the government authorities for providing special permissions to carry these challenging dispatches. The customer appreciation once again proves L&T Heavy Engineering's unparalleled manufacturing excellence to promote honorable PM's vision of "Make in India".

L&T Heavy Engineering has state-of-the-art, fully integrated, world-class manufacturing facilities at Hazira (Surat), Powai (Mumbai) and Vadodara. The Heavy engineering business of L&T has a proven track record of supplying technology-intensive equipment and systems to global customers in Refinery, Oil & Gas, Petrochemicals, Fertilizers and Nuclear Power industries.

## Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 21 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
