L&T Wins Frost & Sullivan Award for Excellence in Green Manufacturing

L&T's Powai Campus and its 'green manufacturing' practices won accolades at the Frost & Sullivan Green Manufacturing Excellence Awards 2011 in Mumbai on 29th April. L&T won the award in the highest category of 'Overall Leaders', for its accomplishments in the large enterprise segment.

The award has been instituted by business research and consultancy firm, Frost & Sullivan to highlight best practices and encourage eco-sensitive manufacturing. A multi-tier selection process involved stringent evaluation and on site audits covering Powai Campus and manufacturing facilities of HED and EBG.

Mr. Ajit Singh (second from right) receives the Award from Dr. Ajay Mathur. Also in the picture are Mr. Alok Sharma, Head – Corporate Sustainability (extreme left) and Mr. Prakash Dhargalkar, Head – Safety, Heavy Engineering (extreme right).

Receiving the award from Dr. Ajay Mathur, Director General - Bureau of 'Energy Efficiency', Mr. Ajit Singh, Executive Vice President, Corporate Infrastructure & Services, summed up the philosophy of green manufacturing, saying: "We have always believed in achieving more with less." He added that "in adopting a green approach, and leading the way in sustainable manufacturing, L&T has been fulfilling its obligation to the environment and society." Looking ahead, Mr. Ajit Singh said that the company would continue to challenge its own benchmarks.
