CNBC's India Business Leader Award is recognised by the Indian corporate sector as one of the most prestigious awards. It acknowledges the strategic leadership and direction that the award-winning business leader has given to the organisation that he heads, and the visible and vibrant impact he has made on industry's prospects for growth. Every award winner is a visionary who has set an inspirational example for peers in the industry.

CNBC-TV 18 stated that the awards sought to honour business legends who have made India proud. Few leaders have been so strongly committed to national values and interests as Mr. Naik. The awards also celebrate values that exemplify the core pillars of leadership such as strength, innovation, ingenuity and foresight.
