LTPML Hands Over 4000th Plastics Injection Moulding Machine

On August 27, 2010, L&T Plastics Machinery Limited (LTPML) – a wholly owned subsidiary of L&T – crossed a milestone in the manufacture of plastics injection moulding machines. The 4000th plastics injection moulding machine was handed over to the customer, TCI, New Zealand – renowned moulder of plastics components – at a function held at LTPML's manufacturing facilities at Chembarambakkam, near Chennai.

Dignitaries on the dais: Mr. P. Kailas at the podium. Sitting (L-R) Mr. Bruno Guillemain, Ultra care, New Zealand, Mr. N.S. Sivaraman, Vice President, Shipbuilding, Mr. Quintin Fowler, TCI, New Zealand, Mr. S. Raghavan, Senior Vice President, Mr. Ashok Goyal, Mr. Anil Kumbhoj and Mr. Sudarshan Gupta of Tenty Group, Kolkata and Mr. S. Venkataraman, Vice President. Right: Mr. S. Raghavan handing over the 4000th machine to Mr. Quintin Fowler.

Mr. S. Raghavan, Senior Vice President & IPM OC Head, handed over the 4000th machine to Mr. Quintin Fowler, Managing Director, TCI, in the presence of Mr. N.S. Sivaraman, Vice President, Shipbuilding, other Chennai based SBU Heads of IPM OC and Area Manager of CAO. At the same function, the 4001st machine was also handed over to the domestic customer, Mr. Ashok Goyal, Director, Tenty Group, Kolkata – a leading moulder of writing instruments.

Mr. P. Kailas, Chief Executive, and Mr. S. Venkataraman, Vice President, welcomed the gathering followed by a keynote address by Mr. S. Raghavan. Mr. Sivaraman, the first Chief Executive of then JV Company delivered the felicitation address. Both the domestic and international customers spoke warmly of their association with LTPML. Mr. I. Venkatesan, Head-Manufacturing, conveyed a vote of thanks.

The Chembarambakkam unit of L&T is a state-of-the-art plastics injection moulding manufacturing facility. It has been manufacturing injection moulding machines and auxiliary equipment for the plastics industry for the last two decades.
