# Technology Block at Hazira wins LEED Platinum Rating

L&T's Technology Block at Hazira, near Surat in Gujarat, bagged the coveted Platinum Rating under the LEED NC v2.2 Rating System.

Inaugurated on January 15, 2009 by Mr. M. V. Kotwal, Senior Executive Vice President (Heavy Engineering), and Member of the Board, L&T, the structure is now one of just nine Green Buildings in India. It secured 56 points out of the 57 attempted, and is ranked third greenest in India and the first LEED Platinum rated project in Gujarat.

The LEED rating system is widely acknowledged to be one of the toughest in the world. Companies in USA, Japan, Australia, France, Canada, China and India compete with each other to meet its rigorous standards.
