VISION

Become the Global Source for
Heavy Forgings and Special Steels
by setting industry benchmarks

L&T Special Steels and Heavy Forgings

L&T SSHF

MISSION

We are committed to follow practices that are safe, environment friendly, cost effective and innovative, creating significant value for all Stake holders including Society at large.

We shall produce Special Steels and Heavy Forgings of High Quality, meeting delivery schedules, for diverse applications including Nuclear / Thermal / Hydro Power generation, Hydro carbon and other Heavy Engineering sectors, making India self reliant.

We shall strive for employee engagement through learning and collaborative work culture.

We shall contribute to various technical advancements through our R&D efforts and actively participate in international forums.

Our continued focus shall be for forging long term relationship with Customers worldwide.
