## **About GWU**

The GW Project Management programmes is among the oldest and most reputable specialized degree programmes of its kind in the world. With over a decade of educating successful project managers, this unique program blends the study of project management with grounding in general management principles and guides students in mastering advanced project management techniques. The innovative curriculum balances practice and theory, developing the skills that professionals need to become effective project managers. The programme is designed to meet the needs of working professionals. Programmes are offered both face-to-face and use state-of-the-art distance learning technology - students can complete Masters in Project Management virtually from any location. The distance mode is held virtually, using captured video lectures and supplemental live chat sessions. The lecture and chat combination allows students taking class in the distance mode to fully interact with peers and instructors.

## **About L&T I'PM**

L&T Institute of Project Management was created in August 2008 and operates from its headquarters at the Knowledge City Campus in Vadodara (Vadodara), Gujarat, India and Chennai campus located in L&T ECC campus, Manapakkam, Chennai.

The charter of L&T Institute of Project Management (L&T I'PM) is to:

- Provide a high quality and relevant education in project management for all L&T employees and prepare them to be proficient as contributing members of project teams and also as excellent project managers.
- Collate and disseminate the body of knowledge in project management as practiced in Larsen & Toubro Body of Knowledge (L&T BOK) through structured courses in project management.
- Develop and deliver project management cases from projects undertaken by Larsen & Toubro.
- Benchmark global project management practices and incorporate these practices in the curriculum thereby creating a Center of excellence in Project Management.
- Collaborate with leading institutes of repute across the globe for research in project management for enhancing excellence in project management.
- Create a unique body of knowledge L&T BOK and document in archival publications and textbooks
- Develop and nurture a talent pool of project management trainers from the practicing managers as a resource for the organization

“L&T Institute of Project Management is a Registered Educational Provider (R.E.P) of PMI, USA.”
