L&T JV Wins ₹3115 Cr Bihar New Ganga Bridge Project

Mumbai, January 20, 2016: The Heavy Civil Infrastructure Business of L&T Construction, along with its joint venture partner, Daewoo E&C of South Korea, has won a major order worth **₹3,115 Crores** from the Bihar State Road Development Corporation Limited (BSRDCL). This is for the design and construction of greenfield six-lane extra-dosed cable bridge over river Ganga near Kachchi Dargah in the district of Patna on NH-30, near Bidupur in the District of Vaishali on NH-103 (Bihar).

The prestigious EPC contract order involves the construction of a 22 km road alignment including a 9.76 km long extra-dosed bridge spanning the mighty Ganga. The project also includes viaducts, ROBs, major bridges and road works. After completion, this will be the country's longest extra-dosed bridge. The project is scheduled to be completed in four years.

“This is a significant win in the heavy civil infrastructure space and we hope that this is a sign for many such projects involving vital infrastructure that are in the offing to materialize,” said Mr. S.N. Subrahmanyam, Deputy Managing Director and President, L&T. “This mandate is truly representative of our expertise in building bridges as we are already building some major bridges in India: one across the Narmada, one in Goa, another near Delhi. With the support of our JV partners we are confident of delivering as per the requirements of our clients,” he added.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 15 billion in revenue. It operates in over 30 countries worldwide.
