

ENVIRONMENT, HEALTH AND SAFETY POLICY

We at L&T Valves Limited, engaged in manufacturing of industrial valves, are committed to

- Provide a safe and healthy work place to our employees and interested parties. Comply with all applicable legal, regulatory and other requirements of EHS.
- Conserve resources like power, water and consumables, minimize waste and promote recycling by setting objectives & targets.
- Dispose the waste generated and minimize loss of resources through a safe work culture.
- Continually improve to minimize environmental, health and safety hazards.
- Train and build awareness among all our employees & stakeholders on EHS issues.
- Review periodically and communicate this EHS policy to all employees & stakeholders and make it available to public on request.

MAHESH JOSHI
Chief Executive
