

# Quality, Environment Health & Safety Policy

At Nabha Power Limited, Rajpura, we are committed to generating reliable, environment friendly power under safe working conditions at our 2 X 700 MW Supercritical Thermal Power Plant through:

- Consistently meeting the quality requirements of our customers along with the requirements related to environmental protection, health and safety concerns of employees, contract manpower and other stakeholders.
- Continual improvement of our processes and practices to achieve operational efficiency and improved environmental and occupational health and safety performance.
- Compliance to all applicable legal and other requirements related to our quality requirements, environmental aspects and occupational health and safety hazards.
- Setting and reviewing objectives and targets for continual improvement in plant efficiency, waste minimisation, restricting emissions and discharges, and mitigating safety risks.
- Preventing pollution, injuries and ill health from our products, activities and services.
- Imparting structured training for employees and stakeholders for effective quality, environment and health and safety performance.
- Encouraging communication, consultation and collaboration with all the stakeholders.
