# **L&T Bags Rs. 347 Crore Construction Order in Kerala State**

**Mumbai, May 23, 2006:** The ECC Division of Larsen & Toubro Limited (L&T) has secured three packages totaling to Rs. 347 crore from the Kerala Water Authority (KWA), for the construction of Treated Water Transmission main and associated works. Aided by Japan Bank for International Co-operation (JBIC), the packages are a part of the water supply improvement schemes, which will benefit around 43 lakh people in Kerala.

The project objectives are to augment and rehabilitate water supply systems of the urban regions, namely Thiruvananthapuram and Kozhikode in the state of Kerala. The project when completed will ensure drinking water supply to the people in the benefited areas spread over these districts to ultimately improve public health and the environment.

The international consultants M/s. TCE Consortium led by Tokyo Engineering Consultants Company Ltd., Japan, will be assisting KWA throughout the implementation of the project.

Major scope of work include, supply, laying, jointing, testing and commissioning of various pipelines running to an approximate length of 170 km. Providing Electrical, Instrumentation and Automation works (SCADA and Telemetry) also form a part of the scope in this project. Project is scheduled for completion by February 2008, a period of 22 months.
