

# Green Supply Chain Policy

L&T is committed to fostering the green consciousness through an inclusive approach that encompasses the activities of its Supply Chain Partners (SCPs), viz. Vendors, Contractors, Service providers and Distributors.

We shall,

- Incorporate environmental regulatory compliance & environmental performance as the key criteria in evaluation of SCPs
- Motivate SCPs to conserve natural resources, minimize waste generation & environmental emissions by adopting energy efficient processes, products and services
- Encourage SCPs to implement Environment, Health & Safety Management Systems
- Support training and capacity building programmes that propagate awareness of environment conservation and green practices

Date: 15<sup>th</sup> February, 2016
