L&T's Power Business Wins (Significant*) Order from NTPC

Mumbai, Aug 26, 2019: The Power business of Larsen & Toubro (L&T) has bagged an engineering, procurement and construction (EPC) order from NTPC to set up Flue Gas Desulphurisation (FGD) system at Vindhyachal Super Thermal Power Station, Stage-I & II (6x210 MW & 2x500 MW), in Madhya Pradesh.

This is in continuation to the order received for Stage III & IV (2x500 MW & 2x500 MW) in September last year. With this, L&T will be implementing FGD systems for 12 units constituting 4260 MW at NTPC's Vindhyachal power plant which will have the maximum number of FGD systems at one location in India.

Installation of FGD systems in existing and upcoming thermal power plants has been made mandatory by the Ministry of Environment, Forest and Climate Change (MoEFCC), Government of India, to curtail SO₂ emissions.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 20 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Project Classification

| Classification | Significant | Large | Major | Mega |
|----------------|--------------|--------------|--------------|-------|
| Value in ₹ Cr | 1000 to 2500 | 2500 to 5000 | 5000 to 7000 | >7000 |
