

L&T SSHF

QUALITY POLICY

We are committed to attaining International leadership in the manufacturing of High Quality Special Steels, Heavy Forgings, allied products and services for diverse applications to create significant value for our customers and stake holders.

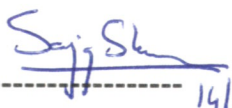

We shall achieve this through:

- Process based approach for manufacturing products to meet customer requirements
- Identifying and addressing Risks and Opportunities
- Effective Implementation of applicable International Quality System standards
- Establishing measurable Quality objectives and performance indicators
- Continual Improvement in all our products and services
- Enhancing internal and external customer satisfaction
- Providing adequate resources to meet quality requirements
- Fostering culture of transparency in communication
- Meeting Statutory and Regulatory requirements

As a good corporate citizen, we shall be sensitive to the needs and expectations of the society.

Leadership team across all levels shall have the responsibility and authority to ensure compliance to this quality policy.
