## L&T Construction Awarded (Significant\*) Contracts for its Various Businesses

**Mumbai, September 14, 2020:** The construction arm of L&T has secured orders from prestigious clients for its varied businesses.

### **Buildings & Factories Business:**

The Buildings & Factories Business of L&T Construction has secured a Design & Build Lump sum Turnkey order from a prestigious client in India to construct a Grade - A office space in two locations in Bangalore, with a total built up area of 2 million sq. ft with 3 Basements + Ground + 13 floors configuration. Total seating capacity of both the projects combined will be 14,600.

The scope of works includes civil / structure works, MEP, façade works, common area finishes and external development works. As a part of the sustainable and green design initiatives, the project will be a Gold LEED certified building upon completion.

### **Water & Effluent Treatment Business:**

The Water & Effluent Treatment Business of L&T Construction has secured an order from Punjab Water Supply & Sewerage Board, Punjab, to provide surface-based bulk drinking water supply to Jalandhar town on design, build, operate and transfer basis. The project is part of the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) scheme.

The aggregate scope of the project includes design and construction of a raw water storage and sedimentation tank, raw water settling tank cum pumphouse, water treatment plant of capacity 275 MLD, clear water reservoir, underground storage reservoirs and pumping stations, raw and clear water transmission pipelines, associated electromechanical and instrumentation, control and automation works. The project involves automation including measuring input and output water quantity and quality through suitable SCADA and other instrumentation works.

The project is designed to cater safe and potable bulk drinking water to Jalandhar benefitting 13.8 lakh population and will help convert existing ground-based water supply system in the town to a surface-based system.

## L&T GeoStructure:

L&T GeoStructure has been awarded projects to construct Down and Up Lines (Package 1 & 2) of a bypass grade separator in Katni district, Madhya Pradesh. The scope involves constructing about 2800 piles, pile caps, piers, pier caps, superstructure, embankment with retaining walls, etc. The project duration is 36 months.

## Background:

Larsen & Toubro is an Indian multinational engaged in engineering, procurement and construction projects, manufacturing, defence and services with over USD 21 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
