

SKILL BUILDING

Creating a skill building eco-system up to the last mile by providing alternate livelihood opportunities for youth and farmers and Enhancing capacity of Warli artists and women

Making an attempt to respond to the economic needs and gaps in skill amongst the school dropouts, unemployed youth, women and tribal farmers, need based and industry-oriented skill building / livelihood opportunities were created by LTPCT at different locations. Salient features of the skill Building programme for the year 2019-20 have been conducting NSDC affiliated courses at different locations and collaboration with industries & engineering University and also with competent brands. Recently new programmes have been introduced to give an opportunity to the school-drop-out trainees to get into mainstream education.
