

ENVIRONMENTAL POLICY

L&T Metro Rail (Hyderabad) Limited recognizes importance of protecting the environment through appropriate procedures and control measures, during Construction and Operations & Maintenance of the Hyderabad Metro Rail Project.

Accordingly, the Organization will lay-down such procedures and control measures to safeguard the environment in accordance with the relevant regulations, statute and guidelines.

We are committed to:

- i. Compliance of environmental legislation & regulation and other environmental initiatives taken up by the organization time to time.
- ii. Minimizing the negative impact to the environment by efficient use of resources, reduction in emissions & waste management, utilizing renewable energy resources and other appropriate measures.
- iii. Increasing environmental awareness amongst employees, public & stake holders and Integrate environmental protection measures in day to day operations.
- iv. Encouraging initiatives and ownership for environment protection by our employees thereby creating strong culture towards environmental protection.
- v. Sensitizing the importance of environmental protection amongst the Contractors, Vendors & Consultants and ensuring that this operation is actively followed by them as well.

L&T Metro Rail (Hyderabad) Limited will work for continuous improvement in its environmental performance and conducts its activities in an environmentally responsible manner fostering sustainable development.
